

SURGICAL TECHNOLOGY for the SURGICAL TECHNOLOGIST

A Positive Care Approach
Third Edition

Plastična i rekonstruktivna kirurgija - pregled

Prezervacija prsta

Sindaktilija

Dupuytren-ova kontraktura

Dupuytren-ova kontraktura se prezentira na 1 od 3 načina:

1.) bezbolni čvorić na dlanu blizu 4. ili 5. prsta

2.) kao jamica u istom području

3.) kao duge fibrozne niti koje se šire od dlana prema prstima

Kontraktura palmarne fascije

Ganglionska cista

- Benigna cista sinovijalne tekućine
- Obično uzrokovana traumom
- Kirurški se odstrani
- Može opet rasti

Opekline

Prvi stupanj: zahvaća samo epidermis

Drugi stupanj: zahvaća i dermis

Treći stupanj: nekroza cijele debljine kože

Četvrti stupanj: karbonizacija

Opeklne

Uzimanje reznja kože

Kategorije režnjeva kože

- Pune debljine
 - Epidermis i dermis
 - Može uključivati i potkožno masno tkivo
- Djelomične debljine
 - Epidermis
 - Epidermis i pola dermisa

Kožni presadci

- Autologni
- Homologni
- Heterologni

Blefaroplastika

Blefaroplastika

Plastika trbušnog zida

- Primarne incizije

Plastika trbušnog zida

- Razmicanje i zatezanje mišića

Plastika trbušnog zida

- Sekundarne incizije

Plastika trbušnog zida

- Zatvaranje i konačni učinak

Redukcijska mamoplastika

Preoperativno

Redukcijska mamoplastika

- Planirane incizije

Redukcijska mamoplastika

- Konačni učinak

Operacije povećanja dojki

Operacije povećanja dojki

Rascjep usne i nepca

Rascjep nepca-bilateralni defekt

Rinoplastika
